

“ MAKING UP OF DISEASE CARE CAPITAL INDIA “

**Speaker :Dr. Senthilkumar, Former Protocol President in
Toxicology, WHO**

Dr. Senthilkumar has worked in WHO as Protocol President in Toxicology for 3 years. He delivered a wonderful speech regarding the huge job vacancy for paramedics. India is been declared as the disease capital of Diabetes by WHO. This can be changed in to disease care capital only through paramedical professionals. There are 4500 vacancies for forensic experts alone. He stated choosing a paramedical course assures employability. Dr. Senthilkumar pointed that Global institution stays unique from all other paramedical colleges because, it has tied up with almost all the hospitals in Erode, which gives multiple hospital exposure for students studying in it.
